

## WEBCONNECT

### Simple

- Straightforward plug-&-play commissioning
- Other SMA devices are not required

### Economical

- Reasonable investment costs and low installation effort
- Most favorable way of plant monitoring

### Communicative

- Free online monitoring via Sunny Portal
- Clear display of the most important plant data with Sunny Portal

### Direct

- Data exchange with Sunny Portal without data logger
- Free Sunny Portal app for data visualization on smartphones

## WEBCONNECT

Direct data exchange with Sunny Portal

Ideally suited for online monitoring of small PV plants with a maximum number of up to four inverters: Webconnect provides free access to Sunny Portal without additional data logger – easily via an existing Internet access and a DSL router. After the simple installation of the inverter interface which is optionally available or already integrated at the factory, you can commission the Webconnect. Basically, it's plug-n-play. Once configured, key plant data can be accessed and displayed in a clear format whenever you need it. Moreover, automatic product updates ensure that the device firmware is always up-to-date.
